

MINI YARD PACK™

Integral Color System for Deco-Crete Overlays & DuraCast GFRC System™

PRODUCT DESCRIPTION

Deco-Crete Mini Yard Pack™ System is an easy to use, pre-measured, & pre-packaged color system designed for use in gray cementitious overlays & gray concrete countertop mixes. Mini Yard Pack™ is UV stable & produces uniform & streak free color dispersion. Just one Mini Yard Pack™ per gray bag mix means no more wasted time measuring or stressing over accuracy. The system is available in 30 distinct colors & is compatible with *Deco-Crete Stamp & Trowel Overlays*, & the *Deco-Crete DuraCast GFRC System™*. Formulated to match Deco-Crete's Yard Pack™ & Granular Color System.

TECHNICAL INFO

- + Dosage Rate _____ 1 pack per bag mix
- + Meets ASTM _____ C979
- + Shelf Life _____ Indefinite

RECOMMENDED APPLICATIONS

- + Concrete Overlays
- + GFRC Concrete Countertops
- + Pour in Place Concrete Countertops
- + Broom, Swirl, & Spray Down Concrete Overlays
- + Vertical Concrete

QUICK FACTS

- + Easy to use, 1 Pack per gray Bag Mix
- + One Colorant for Multiple Systems
- + 30 Standard Colors
- + Uniform & Streak Free Color Dispersion
- + UV resistant

MINI YARD PACK™

Integral Color System for Deco-Crete Overlays & DuraCast GFRC System™

INSTRUCTIONS FOR USE

Deco-Crete Mini Yard Pack™ is formulated for use in GRAY cementitious bag mixes only. Using Mini Yard Pack™ to color white cement mixes will drastically change the final color. To achieve uniform color, it is CRUCIAL to maintain the same amount of water or modifier from batch to batch.

DOSING

Deco-Crete Mini Yard Pack is formulated as a 1 pack per bag mix colorant system.

MIXING

Add desired amount of water or modifier to mixing bucket or tub. Open bag & empty entire contents of Mini Yard Pack™ & mix thoroughly with a paddle mixer. Add cementitious bag mix to mixing bucket or tub & follow instructions for bag mix system being used.

PRO TIPS

- + If using a mason mixer, colorant will need to be mixed in a separate bucket. Before mixing Mini Yard Pack™ in bucket save ¼ of the water or modifier per batch. After dosing your liquid & pouring the colorant mix into mason mixer, use the saved liquid to wash any remaining colorant from bucket into mason mixer.
- + Avoid using water during finishing process as it will fade/streak color.
- + Allow cementitious product to fully cure for final color to develop.

FOR PROFESSIONAL USE ONLY. This product is intended for use by licensed concrete contractors that have the experience & training to use this product. The colors shown on the color chart are an approximate representation of concrete with a flat trowel & unsealed finish. Deco-Crete is not responsible for application methods, finishing techniques, or any other variables that cannot guarantee the final appearance to be an exact match to the color chart. Deco-Crete strongly recommends that a representative jobsite sample be made for each product.

STORAGE

- + Store in a dry, covered area. Avoid moisture and direct sun.
